- Cream White (RAL9001)
- Signal Grey (RAL7004)

F60 LOUVER ALUMINIUM GARDEN FENCE

MEF Aluminium garden fence systems add great value to properties. Aluminium fencing enhances landscaping and adds security to a garden, pool, or building, while not hiding views. It provides your property with perfect barriers for complete or partial backyards to keep pets and children safe. Add elegance, security, and value to your home with residential aluminium fencing!

Compared to wrought iron fencing, aluminium fencing is virtually maintenance free. Traditional wrought iron fencing will rust, peel, and flake over time as opposed to aluminium which will not. The best thing about aluminium fencing is that it is also impervious to termites, unlike wood, and offers high visibility. F60 Aluminium fence model has louver panels which hides the views from outside. Aluminium adapter profile helps to fix the louver panels to post profile with hiding the screws.

- 60x60mm Aluminium post
- Screws are not visible
- Easy do-it-yourself assembly
- Standard RAL colours are available
- Simple, clean and stylish lines
- Strong, light and rust-free

- Standard RAL Colors
- Black (RAL9005)
 - Anthracite Grey (RAL7016)
 - White (RAL9016)
 - Cream White (RAL9001)
 - Signal Grey (RAL7004)

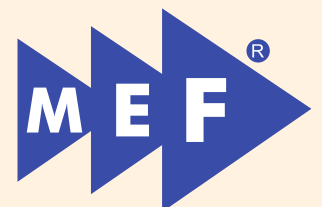

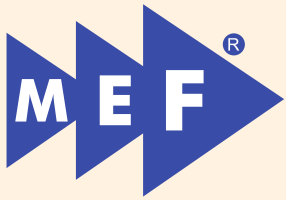

F60 V ALUMINIUM GARDEN FENCE

Aluminium fencing has long been a popular choice for homes, thanks to its durability and strength – as well as it's an attractive finish that complements almost all properties. MEFF60V has a vertical design with the choices of cambered and flat rectangular lamella profile. The system has a 60x60 mm square post which can be fixed with a base connector to the slab. A horizontal transom profile will help you to fix lamella aluminium profiles with hiding the screws.

One of the great things about aluminium fencing is it's an incredible versatile product that can be used in many applications around your home-including front, pool, garden, security, and commercial fencing. It is available in standard RAL colors like 9005-9016-9001-7016 -7004 and a variety of colors to ensure that you get the perfect match for your property, allowing your fence to constantly looks its best.

F100 ALUMINIUM GARDEN FENCE

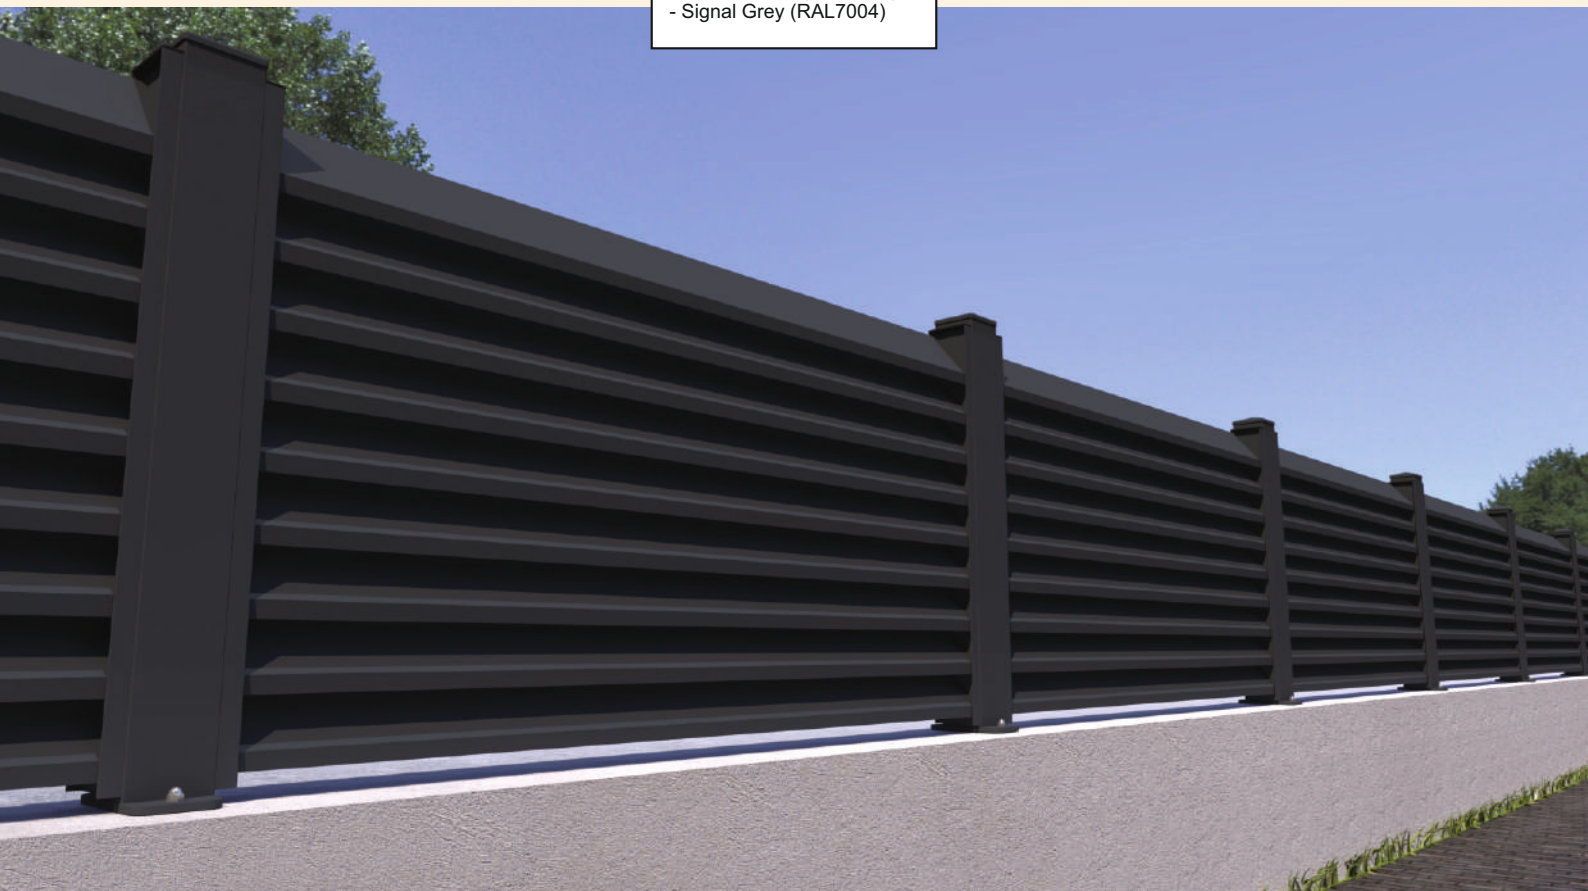

Enjoy the utmost privacy in your garden thanks to the aluminium fences produced by MEF. Aluminium privacy fences have become very popular, above all due to their high-quality design for single and multi-family dwellings and other buildings. MEF aluminium fencing enhances landscaping and adds security to a garden, pool, or building, while not hiding views. This innovative system represents a durable and stable fence model which has 100x100mm post and louver shelves. The result is an exclusive garden fence for the modern garden. The system contains angled louver aluminium profiles which cancel the view from outside. Installation is simple and precise. After connecting the post profile to the base connector, just fix the base connector on the ground directly with using appropriate screws or anchors. The panel width can vary up to 200 cm and it is even possible to reach a height of 220 cm. MEF F100 is the perfect solution if you want more privacy.
